Thank you for your vote and your support.
The Annual Members' Meeting was a great success; we would not have been able to do it without you.

New Year—new outlook—new goals—

We'll continue to work on our projects listed on the 5-Year Plan. More details will be coming as we finish up a couple of last year's projects and we begin new ones this spring. It seems like nothing is "complete" as there are always improvements, upgrades, and/or updates and of course, maintenance.

Although I thanked the employees of Rio for their dedication, I want to give a special thank you to the office staff, Cheryl, Bill, Chris, Sherry, and Thom for their help last year. I appreciate all the work you do to keep the office running smoothly and successfully. Again, thank you.

The Board of Directors looks forward to another year of making Rio Salado Sportsman's Club a premier shooting facility.
See you on the Range....

➤ **Executive Officer**

As a long-time member of Rio Salado Sportsman’s Club, it is my privilege to be able to serve on the board of directors, and to give back to the club that has provided so much enjoyment to me.

I look forward to working with the various divisions, and the executive board members, to continue improving the range facilities so that all who shoot here will be able to enjoy the best experience possible.

Thanks for the opportunity to serve!

Job Opportunity

The Main Range is looking for Range Safety Officers

Must be available to work weekends and holidays, and the days after the holidays. You will be scheduled up to 30 hours a week, this will include a Saturday or Sunday or both.

No experience necessary, we will train you. Duties will include watching the shooters on the firing line to make sure they are being safe. Other duties include keeping the main range clean and free of hazards, repairing target frames, emptying trash, stocking targets, checking in members for lower range use and verifying they have PP, HP, and/or SB on their badges.

You must be able to lift 50 pounds and stand on your feet for a long period of time and work in extreme heat and cold.

Applications are available in the Activity Center or at the Main Range.
